Market Access Insight: Enhertra in France (2024)

Report date: 2024-02-17 | Prepared by: Greta Lindholm

Access Overview

Reimbursement for Enhertra in France was approved on a managed entry agreement requiring real-world evidence submission within 18 months of launch under ANSM.

The national health insurance system applies health technology assessment before listing Enhertra for HER2-positive breast cancer.

Payer Perspectives

Payers in France view the price of Enhertra as acceptable only with a demonstrated clinical benefit versus the standard of care.

Formulary placement is reviewed annually, and pricing is linked to outcomes in the registry.

Evidence Requirements

Required evidence includes overall survival or response rate data, patient-reported outcomes and comparative effectiveness against Enhertra's main competitor.

Pricing and Reimbursement Outlook

A confidential rebate is expected to remain in place until 2026. Market access risk is moderate for new indications.
